Allowance (11/6/06)

1. The following is an Examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this case, is the inclusion of the limitation "at least one front roof element and one rear roof element, rigid and able to be moved between a closed position in which they cover the vehicle cabin and a storage position in which they are stored in the rear boot of the vehicle, the rear element being arranged so as to be moved by means of pivoting arms and guided by runners extending in the boot, said roof comprising a first arm articulated transversely to the plane of symmetry of the vehicle, at a first of its ends on the vehicle chassis and at its second end on a first end of a second arm articulated at its second end on said rear element, also transversely to the plane of symmetry of the vehicle, characterized by the fact it comprises first means of driving the first arm in rotation with respect to the vehicle chassis and second means of driving the second arm in rotation with respect to the first arm" in the independent claim, in combination with the other recited limitations in claims supported by this application, which are not found in the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
